

Interprofessional Clinical Supervisor Workshop

Clinical Supervision Tools

Take home message:

- *The more the student processes and the less you say, the more successful the encounter is likely to be.*
- Your role is to be the guide on the side, not the sage on the stage. You are there to assist the learner to learn, not to demonstrate your own high levels of expertise. Your role is to facilitate learning.

Strategies for Clinical Supervision

- Lectures
- Seminars / tutorials
- Observation
- Debates
- Games
- Demonstrations & practical exercises
